OXYGEN FOR YOUR BUSINESS

MEDIOR / SENIOR

JAVA DEVELOPER – TECHNICAL LEAD (M/F)

O2XP is looking for new colleagues for its teams of motivated and innovative Engineers.

You are autonomous, creative and productive. You communicate in English (French or German an asset). You love what you do and you share ideas with your colleagues. You are at the right place!

Typical Tasks / Responsibilities

- Analyze, design, develop, test and maintain IT applications;
- Produce technical and functional specifications of existing and/or new applications/services;
- Interact/cooperate with teams across multiple locations (functional, development and testing teams);
- Technical lead of a small team of developers;

Required skills

- Good/Strong technical expertise in Java 8, JEE (JPA, REST, EJB, …), Spring, Spring Boot, SQL and Linux;
- Capacity to quickly understand and enhance existing applications;
- Good understanding of Messaging (JMS, OAQ, AMQ, …) and Service Oriented Architecture (SOA) concepts;
- Good knowledge of JBoss Server and Oracle (RDBMS) products;
- Ability to work in a team distributed across multiple locations;
- Able to lead a small team of developers and/or to be a technical leader within the team;

Nice to have

- Information technology in the banking and insurance domains;
- Enterprise Service Bus; Apache Camel;
- Layered service architecture;

OXYGEN FOR YOUR BUSINESS

WHAT ABOUT YOUR NEXT STEP ?

SERVICES & EXPERTISE

We offer you expertise in **Open Source** frameworks, tools and librairies. O2XP is **oxygen** for your **business**. What about your next step?

DEVELOPMENT

Api? Api Gateway? Micro-services? Serverless development? Java? C#/.Net? Angular? React? UX (User Experiences)? Let's get in touch. We have a solution for you.

INTEGRATION

You need to integrate your existing solutions? You need to communicate with other data providers? We have lots of expertise in these fields using Open Source tools and libraries.

DEVOPS, AGILE, AUTOMATISATION

Our daily work in on the field. We are using the customer tools and procedures. We can help you to improve the processes (CI/CD).

CLOUD (AWS, AZURE)

So much to say there. From Lambda development to Ansible deployment and the use of Kubernetes (+ Docker) passing by Kong Api Gateway or AWS Api Gateway.

OUR MINDSET

DNA

Young company, mix of youth and experiences, flat structure, tribe spirit where colleagues are human being.

DAY 1 COMPANY

We are a Day 1 Company. Every day is a new day where experimenting, inventing and innovating is the norm. We help our customers through innovation.

LEARN IT ALL

We have a 'learn it all' culture where we practice the 4C leadership (creating, collaborating, changing and challenging).

INTELLIGENT FAILURE

We embrace intelligent failure where 'fail fast, fail cheap and move on' is a good rule for us and for our customers.

TRUST

We trust our colleagues. We built the future with young and experienced people. Our customers embrace our dynamism, culture of innovation and share our successes.
